

STONE
GRAPHICS™

BUNKERS!

SAMPLE

This is the first official release of tabletop wargaming PaperShaper™ terrain by Stone Graphics™ for 6mm scale war games. I will be working on additional structures and play aids. If you would like to be notified when these are released, please e-mail me at: sayth@stone-graphics.com. These are designed to be spray mounted on card stock (comic book backing boards are recommended for thickness and quality). Cut them out along the solid black lines and score them along the dashed lines. Use a glue to secure the white tabs underneath the adjacent wall sections. Just for fun...enjoy!
